THE CLIMAX of an academic year holds in itself some remarkable symbolism, traditional drama and great expectation. This issue of *The Maine ALUMNUS* indicates that our year end celebration in 1963 was no exception. Changes were evident, with Commencement on a Saturday, but the same good fellowship and the same generous behavior, the same concern for and interest in the Maine State University were also evident.

This was a year of re-examination of our operations and expansion plans, with the 101st Maine State Legislature looking over the expense sheets. Percentage of cost paid by the students continues to rise, while as a percentage of total dormitory and classroom cost the State's share is less than forty-five.

Perhaps alumni are most proud of their efforts this year to help the University through the benefits of the second year of the annual fund. A goal of \$75,000 was exceeded shortly after Commencement. Admittedly, the dollars make only a wee proportion of the funds needed in such a large institution, but they tend to provide what other income cannot. Gifts were made from the fund for a named professorship in Music, for Scholarship, for the Library and for unrestricted purposes.

Collections were made on the Arthur A. Hauck Auditorium pledges, and new gifts were received also, allowing payment of \$261,000 more to the project during the year.

A grand adventure to publish again the names and addresses of all alumni was started and two-thirds completed in the fiscal period. New directories will be available in the fall.

A new file of mailing cards was created in the IBM center, for better handling of magazine and bulletin subscriptions. Some errors were made also, but the initial system has had improvements added to it, while apologies have gone out to alumni.

Forty-four local associations were held together by dedicated officers of regions in and out of state. They held more than 85 formal meetings, in addition to luncheons and picnics—some of which were regular, like those in Augusta, Portland, Boston, Philadelphia, and Pittsburgh. Classes also held meetings, and reunions, which created considerable mailing activity and project work.

Homecoming and Commencement continued again to be popular and pleasant occasions for hundreds of alumni.

The end of the year comes with regret for the loss of Margaret Mollison '50, Assistant Executive Director, yet with joy and good wishes, concerning her marriage.

The year has been full of changes, but full also of goodwill. The wish is sincere, to say thanks for a grateful University.

June 14, 1963

An Open Letter to Fellow Alumni—

It has been my privilege to work for the General Alumni Association of the University of Maine for the past ten years. I have seen our ranks of alumni reach a total of over 31,000 and each new class adds over 1,000 people annually. We have a rapidly expanding membership which challenges the older alumni to reach out and include the younger Maine men and women wherever they choose to live.

The year 1965 marks the centennial year for our University of Maine; it marks the ninetieth anniversary of the General Alumni Association. When one reads back through the official minutes of the annual meetings, which have been held since 1875, he realizes the truly great contribution which has been made directly by thousands of Maine Alumni. We often look to the tangible to judge. Alumni contributions made possible Alumni Hall, the Field House and Memorial Gymnasium, the Raymond H. Fogler '15 Library, the Memorial Union Building; and, currently under construction, the Arthur A. Hauck Auditorium. Annually the individual bequests, class and local association projects and scholarships, and Annual Alumni Fund present a continuing and increasing tribute in loyalty to the University. The principle of helping other young students realize their dreams of advanced education is evident at this state-supported land grant University of Maine. It behooves us to expand the opportunity for other classes of young folks.

Henry Heald, president of the Ford Foundation has been quoted for saying, "The ultimate continuing strength of a University rests with its alumni. . . . They are keepers of the tradition, preferred stockholders of the enterprise, the mark of its accomplishment." This seems to be a most significant statement. Univer-

sity President Lloyd H. Elliott read this message to those 540 alumni gathered for the Alumni Banquet held in the Memorial Gym on Saturday evening, June 8, of the 1963 Commencement-Reunion Weekend. From my acquaintanceship with the University of Maine alumni during the past ten years, I know we are in the top ranks nationally for loyalty and service to our ALMA MATER. However, as we continue to expand in numbers, the challenge of kindling and maintaining active interest on the part of all our alumni will be great. Each of us must continue to assign himself as an "ambassador for Maine" and continue the mission of cultivating our fellow alumni for active participation in dollars and deeds.

Russ Woolley '41, your capable and effective executive director, with Mildred "Brownie" Schrumpf '25 and Art Mayo '58 as assistant executive directors, will pilot a fine alumni program. They surely have our confidence, and we need to add our active service whenever the call comes our way. It has been my pleasure to work with these directors and know they will carry on the varied work of the Association in the best Maine tradition.

Now to a personal note. My resignation becomes effective as of June 30, 1963. Wedding bells ring on July 20 for Donald W. McIntosh and me, 1950 classmates. We will live in the Kittery, Maine area, for Don is a nuclear power engineer at the Kittery Navy Yard. We look forward to Class Reunions and Homecomings and to the chance to greet so many of you who are wonderful friends. And, we are ready to answer the call "to work for Maine" at every possible opportunity. The University of Maine offers great new horizons for her students; we wish to do our part to expand these horizons for others.

*"Maine"-ly yours,
Margaret M. Mollison '50

CAMPUS IN SPRING

Bangor Daily News—Danny Maher

Cadet Col. John Christiansen of Sudbury, Mass., proudly receives the Charles A. Rice '17 Sabre from Mr. Alfred B. Lingley '20 as the highlight of the annual University ROTC Review and Awards Ceremony on Alumni Field in mid-May. Cadet Col. Christiansen was adjudged the top senior in the ROTC program. Mr. Lingley presented the sabre in behalf of the General Alumni Association.

IF YOU LIVE in the Orono area, you were probably one of thousands of amateur weather prophets who predicted that spring would never come in 1963. How could it? No less than a whopping 160" of snow fell on the campus during the winter ...and all-time record! Huge banks still remained in mid-April.

Lo and behold, however, the days suddenly turned warm and the banks disappeared almost by magic to permit students to enjoy a month of good weather in May.

A new campus mayor was elected: **Marshall Stern '64** of Bangor, who is a member of a real Maine family. His dad is **Edward '30** and mom is **Mollie Rubin Stern '32**. Young Stern campaigned as the Campus Playboy and won by a good margin.

A major highlight of the spring schedule was the observance of the 50th anniversary of the founding of the pulp and paper course in the College of Technology.

Mr. Charles E. Crossland '17, working with faculty members of the University of Maine Pulp and Paper Foundation, coordinated and planned a splendid program which attracted industry leaders from around the country for a day of talks, round table discussions, tours of campus pulp and paper facilities, and views of student demonstrations.

Major news items in recent weeks:

Lengyel Hall

The women's physical education department moved to Helen Lengyel Hall, named by the Trustees after Prof. Emerita Lengyel. The move was made two days before commencement to pave the way for remodeling of the old women's physical education facilities in Alumni Hall. The old gymnasium will be made into studios for the Maine Educational Television Network.

UMP Graduation

Graduates of the University of Maine in Portland were urged to "place a high priority on their continuing education" at commencement exercises at Payson Smith Hall. **Dr. Lester W. Nelson**, associate program director of the Education Division of the Ford Foundation, was the commencement speaker.

Bachelor of law degrees were awarded nine graduates of the School of Law and bachelor of science degrees in business administration were presented to 22 graduates of UMP.

Also participating in the program, attended by instructors, parents, and friends of the graduates, were **President Lloyd H. Elliott**, Registrar **George H. Crosby**, UMP Director of Undergraduate Studies **William L. Whiting '37**, Dean of Law

Edward S. Godfrey, Director of Religious Affairs Rev. **Harvey H. Bates, Jr.**, Prof. **G. Graham Waite** and Asst. Prof. **David B. Hopkinson '42**.

ROTC Commissioning

Forty-six seniors received armed forces commissions on the morning of commencement. Forty-three were inducted into the Army, two into the Navy, and one into the Marine Corps.

The oath of office to the new Army second lieutenants was administered by **J. Larcom Ober '13**.

Research

Original research by a recent Maine alumnus may result in the possible solution to a nagging and costly problem for paper mills.

For the past year, **Franklin E. Woodard '62** has been studying methods of biologically removing lignin from pulp mill black liquid which is discharged, usually into rivers, by the mills.

Woodard has been so successful in his work as a graduate student in the department of civil engineering, according to his thesis adviser, **Dr. Otis J. Sproul**, that he was invited to the 18th annual Industrial Waste Conference at Purdue in May to give a paper on the results of his work.

WMEM-TV

Call letters for the Maine Educational Television Network's station in Presque Isle (Channel 10) have been assigned by the Federal Communications Commission.

The station will bear the letters, WMEM-TV. The Orono station of the network will be WMEB-TV. Headquarters for the Network are being constructed in Alumni Hall.

Miss Wilson Cited

The 1964 Prism has been dedicated to Miss Edith G. Wilson, former dean of women.

A member of the faculty since 1931, Miss Wilson is presently serving as assistant to the president for institutional research, having been named to that position by the Trustees a year ago.

In citing Miss Wilson, the editors noted: "To Edith G. Wilson we dedicate the Prism—a tribute to her many years of devotion to the complexities of education. As a competent leader she has influenced many students, an influence to be perpetuated through their lives of increased enthusiasm and maturity. For 30 years she was a commendable dean of women, a patient and resourceful guide to the people she worked with. With an amazing facility for remembering individuals, she is a friend—an outstanding woman whom we like and admire."

Pulp and Paper Scholarships, Grants

The 1963-64 budget of The University of Maine Pulp and Paper Foundation includes \$61,750 for scholarships and grants to be made to pulp and paper students at the University, according to **Frederic A. Soderberg '25** of Rensselaer, N. Y., vice president of the Huyck Corporation and president of the Foundation.

This is the largest amount ever appropriated by the Foundation for this purpose and is believed to be the largest amount offered for pulp and paper students at any university in the country.

Pres. Soderberg said the increased amount was needed due to the larger number of students planning to take the pulp and paper course at the University next year.

Extension Changes

"To make education serve more of the needs of Maine people."

This is the way University President Elliott sums up the new role of the Cooperative Extension Service at the University. Although July 1 has been set as the date when several changes in the CES will take place, the "new look" for the Service has been shaping up for some time.

During recent months, **Dean Winthrop C. Libby '32** and **Edwin H. Bates '37**, top administrators for the Service, have been explaining to various groups throughout the state the benefits to be gained from the reorganization and reorientation of the Service. At the same time, these men have sought the advice and counsel of many state and county leaders in connection with the changes.

Four staff members who were at the University of Maine in 1913 when the first pulp and paper course in the U. S. was established were present at the recent 50th anniversary program on campus. L-R: Dr. J. Newell Stephenson '17, Gardenvale, P. Q., now editor-in-chief of the Pulp and Paper Magazine of Canada and one of the original teachers; Dr. Ralph H. McKee '29H of New York City, head of the chemistry department in 1913; Dr. Harold S. Boardman '95, Waterville, president emeritus of the University of Maine who was dean of technology in 1913; and James A. Gannett '08 of Orono, registrar-emeritus who was registrar when the course was founded.

Three men who have guided the University's College of Technology in the past visited with present Dean of Technology Dr. Thomas H. Curry, left, during the recent 50th anniversary program of the pulp and paper curriculum. Left to right: Dr. Curry; Dr. Harold S. Boardman '95, president emeritus of the university who was the first dean of the College of Technology and dean when the pulp and paper course was established in 1913; Dr. Paul Cloke '34H, dean emeritus of technology; and Dr. Ashley Campbell, a former dean who is now Tufts University dean of engineering.

Alumni Activity Awards

SEVEN OUTSTANDING MEMBERS of the University of Maine's alumni body have been announced as the first recipients of Alumni Activity Awards, established by the Alumni Council.

The recipients are Mrs. Kathryn Mills Browne '47 of Elmhurst, Ill., Mrs. Mollie Rubin Stern '32 of Bangor, Mr. and Mrs. Russell Bodwell '44 and '45, respectively, of Florham Park, N. J., Mr. Harold Polleys Hamilton '30 of Gloucester, Mass., Mr. Chester A. Baker '25 of Augusta, and Mr. Carleton W. "Speed" Merritt '24 of East Greenwich, R. I.

The object of the Alumni Activity Awards is to maintain and develop strong and active goodwill for the University through work in local organizations, class activities, and the Alumni Association.

The Award shall not be given to any person who has received the Alumni Service Award, Black Bear Award, or is a Council member at the time of the award.

The activities to be given consideration, singly or in combination, include the following:

1. Strengthening of the local association, evidenced by a willingness to actively serve on committees, prepare mailings, handle notifications and make contacts, or any other service, which, in the opinion of the local group, has been of a definite and constructive value to that group.

2. Individual class participation and support of class activities such as, exceptional service as class secretary, class fund raising for the Foundation, the Alumni Activities Fund and stimulation of support of Annual Giving.

3. Development of the University image in local communities.

4. Publicity support, or obtaining it for the University through any of the news media.

5. Legislative support and/or interpretation of the needs of the University to the Legislators.

6. Support of the Annual Giving Fund Activity through contributions made in time and effort to make the Annual Giving Fund a successful operation in the area covered.

CARLETON "SPEED" MERRITT '24, third from right and shown in the company of fellow Maine men Verne Snow '31, Al McNeilly '44 and Aram Garabedian '57, is one of the all-time greats of University of Maine football and sports in general in the State of Rhode Island...his loyalty as a Maine alumnus has been demonstrated through the years as he has actively served on every alumni fund drive, collecting and contributing...he is a member of the Pulp and Paper Foundation and served as president of the Graduate "M" Club in 1961-62...he is a charter member of the Rhode Island Black Bear Club...the Marion Farrington Merritt Scholarship at Maine is named for his late wife...it is most fitting to honor a man who has been unsurpassed in his loyalty and active support of his alma mater.

MRS. MOLLIE RUBIN STERN '32, left, shown being congratulated by her Bangor neighbor, Mrs. Rena C. Bowles '21, has been tremendously active in University alumni activities...a faithful member and worker of the Southern Penobscot Alumnae, she has given freely of her time on all fund projects of the group...every year she has been appointed to select the silver gifts which the Southern Penobscot Alumnae present to the Memorial Union...from 1956 to 1960 she was alumna representative to the advisory board of the SRA...she is a member of the executive committee of the Class of 1932...her husband, Edward '30, and brothers, Max '33 and Morris '38 are Maine men and in early May her son, Marshall '64, was elected campus mayor.

HAROLD POLLEYS HAMILTON '30, right, shown being congratulated by University Admissions Director Jim Harmon '40 and Mrs. Hamilton, is an outstanding member of the alumni association...as an alumnus there is so much to say, that his activities cannot wholly be listed here...he has become the local admissions counsellor for his University...he is exemplary in the kinds of work which have been of immeasurable value to Maine...a booster, public-relations minded, and always friendly...a strong sportsman and a supporter of teams and players...an interested youth adviser...to him goes much credit, and also to his good wife and help-mate Gwen, for outstanding accomplishments in the name of the University.

KATHRYN MILLS BROWNE '47, shown receiving her award from GAA Director Russ Woolley '41, left, and congratulations from her husband, Joe, is the devoted and enthusiastic secretary for the University of Maine Chicago Area Alumni Association and a real loyal daughter of Maine...as an undergraduate, the Houlton native was on the board of the MCA, Women's Athletic Association, and Women's Student Government Association...she is extremely active in civic affairs in and around Elmhurst, Illinois...although far from her native Aroostook County, Kay always can be counted on to promote the causes of the University in any alumni project...her husband Joe, a Boston College graduate, also has been most helpful as a loyal New Englander.

Great Maine Boosters:

Carleton Merritt '24
Mrs. Mollie Rubin Stern '32
Harold P. Hamilton '30
Mrs. Kathryn Mills Browne '47
Chester A. Baker '25
Russell Bodwell '44
Mrs. Barbara Higgins Bodwell '45

CHESTER A. BAKER '25, second from left, is joined by Mrs. Baker, A. P. Wyman '07 and Mansfield Packard '25 as he receives his award at a meeting of the Northern Kennebec Alumni Association...although his organizational demands are great in his position as state secretary of the YMCA, he has found time to serve as president of his class of 1925 and as president of his local association...an ardent supporter of our University, his leadership has been markedly outstanding...to him goes much credit, but it is shared by his good wife, a B.A. and M.A. degree holder of Bates...as residents of Waterville they are truly active citizens in support of youth and education.

(RED-FACE DEPARTMENT: Due to unavoidable difficulties, we are unable to present a photo of Mr. and Mrs. Bodwell receiving their awards. We hope to do so, however, in the future.)

MR. AND MRS. RUSSELL (BARBARA HIGGINS) BODWELL, classes of 1944 and 1945, respectively, are an outstanding son and daughter of Maine...Barbara's enthusiasm and diligent work on alumni committees, as well as constant support and work for our Greater New York Alumni Association, mark her as a "true booster for Maine"...Russ is an active member of the class of 1944...residents of Florham Park, N. J., they are real strength for the Greater NY Association...we call on them for work in the New Jersey area...they are seen often in Orono for homecoming and commencement programs and their record of continued support to our University speaks for itself and truly exemplifies the finest in "Maine spirit."

RE — UNION 1963

Don Taverner '43 receives the coveted Alumni Service Emblem from GAA President Al McNeilly '44.

UNIVERSITY OF MAINE alumni by the hundreds returned to the Orono campus on June 7 and 8 to participate in the annual Commencement-Reunion Weekend activities.

It was a busy occasion, one which found alumni scurrying from one event to another with few moments permitted for collecting one's wits.

Alumni traveled great distances in some instances. The two members of the fair sex who attended the Class of 1913's golden anniversary reunion were **Mrs. Alice Harvey Brewer**, who traveled from Hawaii to Columbia, Mo., where she joined classmate **Mrs. Antoinette Webb Wheaton** for a drive across the midwest and into the east to Orono.

The featured events of the weekend, bringing together all alumni, were the Alumni Luncheon in The Commons on Saturday noon, and the Alumni Banquet on Saturday evening in Memorial Gymnasium.

The Class of 1913 was honored at the luncheon. University **President Elliott** said many fine things about class members and Class President **J. Larcom Ober** of Beverly, Mass., responded for the class. He concluded his review of the class's history with these inspiring words:

"Call on us, rely on us, we are tried and ready."

Russ Woolley '41, executive director of the General Alumni Association, briefly reviewed each member's background as they were presented with 50-year certificates by President Elliott and congratulated by **E. C. "Buzz" Sherry '38**, new president of the GAA.

Stirring words concerning the role to be played by large universities in the future growth of the nation were consumed by alumni at the evening banquet. The featured speaker was world-famed scientist-educator **Dr. James R. Killian, Jr.**, chairman of the Massachusetts Institute of Technology Corporation.

Strong universities, he said, "can contribute to the economic

well-being of the nation and of local communities. "The university can encourage new industrial enterprises. Our universities are . . . the major centers for scientific discovery and hence, for the generation of much of this new science-based industry, which can profoundly affect the economic growth of a community of a whole region," he noted.

Of great interest to those gathered in the gymnasium was another feature of the program. **Donald V. Taverner '43**, now of Pittsburgh, Pa., was presented with the coveted Alumni Service Emblem, awarded annually to a man or woman who has rendered outstanding service to the university.

Don, who served for many years during the 1950s as director of the alumni association and later as the University's first director of development, has been one of Maine's finest alumni association members during all of his adult years.

The recipient is now general manager of WQED educational television station in the Steel City.

Another highlight of the evening program was an announcement by retiring GAA president **Alvin S. McNeilly '44** that GAA members, at the annual business meeting, had voted three gifts to the University: \$2000 for the Raymond H. Fogler '15 Library; \$5000 to establish a President Lloyd H. Elliott Fund in observance of President Elliott's five years at Maine; and \$11,000 to the University for use in equipping the Arthur A. Hauck Auditorium. The last gift, McNeilly said, was in addition to the GAA's original pledge.

President Elliott responded for the University and said that the income from the \$5000 fund would be used for student scholarship purposes. He expressed heartfelt thanks for the GAA's kind deed.

Complete details on business transacted at the business meeting, as well as a listing of gifts made by the reunion classes to the University, will be given in the next issue of this magazine.

Trustee Report: UM Goals High

IN 1868 when the design of the Maine State College was stated by its founders—quote “To give to the young people of the State the advantages of a thorough liberal and practical education by means of the most approved methods of instruction” a precedent and a continuing challenge was established for all time to come.

To meet the purpose and demands of the design of education as previously stated, the University must set its sights and goals high. This **Pres. Lloyd H. Elliott** has done since his arrival on our campus in 1958. An educational institution must wage an unremitting war against mediocrity.

The seedlings of new ideas, new methods can only survive in a climate which is fitting and the deadwood of obsolete ideas must be hacked out. **Pres. Elliott** has worked ceaselessly to strengthen the University's academic program at both the graduate and undergraduate levels.

He has given new impetus to the institution's research program, and has fashioned a new conception of the University's role in providing and coordinating Extension Services and adult education to the people of Maine.

The campus is growing fast in three ways, length of school year, enrollment, and beauty in buildings and landscaping.

Enrollment

The enrollment this past year for the regular sessions in Orono and UMP totaled 5,131. Last summer there were 2,754 enrolled during the 12 weeks. Also, this year there have been 4,306 registrations in Extension and Continuing Education. This makes a total of over 12,000 registrations at the University during the 12 months.

Academic

This past year the Honors Program was enlarged to begin the spring semester of the freshman year and to enroll students in all four colleges. Forty freshmen have participated in this stimulating program.

Seven (four girls, three boys) of the high school juniors studying at the University last summer applied for admission in September and after careful evaluation they were admitted. Two of these were on the Deans list for the fall semester.

Forty-two top ranking graduating high school seniors applying for admission to the University in the fall of 1963 have been designated Distinguished Maine Students, granted fall semester tuition, and enrolled in a special Honors Program for their first semester.

Educational Television

Educational television is coming close to being a reality in the northern and eastern sections of Maine. The facilities are being developed this summer in Alumni Hall. The gymnasium will undergo a transformation for E.T.V. The schedule calls for telecasting to begin in October.

R.O.T.C.

The 101st legislature voted to transfer powers regarding the future of R.O.T.C. to the Board of Trustees. The Board will, no doubt, desire to act in accordance with the recommendations of the Department of Defense. These recommendations are dependent upon Congressional appropriations to support a revised program based upon voluntary enrollment.

1962 Peace Corps Training Program

The University of Maine was selected as a training site for 30 Peace Corps volunteers destined for assignments in Sierra Leone, West Africa.

The University has been selected again in 1963 for a second Peace Corps training project, this to train approximately 40 volunteers for assignments in Jamaica and Saint Lucia, islands in the West Indies.

Ph.D. Programs and Professorships

The approval of the Ph.D. program in Chemical Engineering brings the total of the Ph.D. programs to five. (Chemistry, History, Psychology, Animal Nutrition, and Chemical Engineering.)

The General Alumni Association named professorship will be held by **Dr. Herrold E. Headley** who will come from Southern Illinois University to head the Department of Music, replacing **Prof. Lewis Niven** who has resigned. **Dr. Headley** has organized and conducted a very successful Choro-phonc Society.

Dr. Edward G. Bobalek has been named D. S. Gottesman Research Professor in the Department of Chemical Engineering.

This provides four distinguished named Professorships at the University. **Pres. Elliott** has said “it is our hope to have 20 such named Professorships established at the University in the near future. Named chairs offer a unique way to combine public support with private philanthropy to the end that the overall strength of the institution is increased”.

Personnel

The major changes in personnel during the year have been the advancement of **Dr. Thomas Curry** to the Deanship of the College of Technology following **Dean Evans'** retirement.

William L. Whiting has served this year as Director of Undergraduate Studies at the University of Maine in Portland, and **John M. Blake** has been the Director of Continuing Education there.

Dr. Mary S. Zink has been the Dean of Women since July 1, and **Mrs. Jane Wiseman Johnson '56**, Assistant Dean of Women.

The Trustees appointed **Dean Winthrop Libby** as Director of Cooperative Extension in addition to his duties as Dean of Agriculture as of January 1, 1963.

Two shifts in Department Headships for next year are of special interest to Alumni. **Dr. A. Douglas Glanville**, and **Dr. Benjamin Speicher** in Psychology and Zoology

Dr. James R. Killian, Jr., delivered a brilliant address on the future role of State Universities at the Alumni Banquet Saturday evening, June 8, in Memorial Gymnasium.

GAA President Alvin S. McNeilly '44, left, hands the gavel to new President Edward C. Sherry '38. Also in the ceremony are, left to right: Herbert "Spike" Leonard '39, new Alumni Council member; Mrs. Winona C. Sawyer '43, second vice president; Robert P. Schoppe '38, first vice presi-

dent; Harry T. Treworgy '49, treasurer; James A. Harmon '40, clerk; Stephen R. Buzzell '20, new alumni representative to the Athletic Board; and Floyd N. Abbott '25, new Alumni Council member.

respectively each expressed his desire to return to full-time teaching and research after carrying the administrative responsibilities for their departments for several terms.

Dr. Arthur M. Kaplan '49, Director of Eastern Maine Guidance Center and Lecturer in Psychology has been appointed Head of the Department of Psychology.

Dr. Kenneth William Allen who received his M.A. at the University of Maine in 1956 has been appointed Head of the Department of Zoology.

Dr. Viola K. Kleindienst became the head of Women's Physical Education in February.

Miss Edith Wilson started her new responsibilities as Assistant to the President for Institutional Research in July.

May we pause here for a moment to pay respect to some of our late faculty, namely: **Dr. Ernest K. Jackman**, **George E. Lord**, **Dr. Payson Smith**, and **Prof. Charles Weston**.

Faculty Salaries

The annual refrain is that although the salaries have been increased substantially over the last few years, the University is still paying the lowest average salaries among the New England state Universities and this is extremely serious as the competition for qualified teaching personnel increases.

New Buildings

The Board of Trustees was pleased to honor **Helen Anna Lengyel** by naming the new Women's Physical Education Building for her.

The Trustees were also pleased to honor **William Edward Barrows** by naming the new Electrical Engineering Building for him.

The Lecture Hall in the new Engineering Building is dedicated to the memory of **Arthur St. John Hill**.

York Hall, a dormitory housing 200 women, was opened this last September.

University of Maine in Portland

We are proud of the growth of our Portland campus. The Law School is a fine professional addition to our role as an institution of higher learning.

Fraternities and Sororities

The fraternities have come to the attention of the Board of Trustees during the year in several ways, some of which necessitated action. The most important action taken was that of establishing a faculty committee to study the total picture of fraternity life on the campus.

The University community was pleased to welcome Alpha Phi to the campus in May of 1963.

Legislative Matters

A *Pre-legislative Conference* in December of 1962 was sponsored this year by the Legislative Research Committee and financed by Governor Reed and the Governor's Council.

Budget

The budget of the University is always foremost in our thinking. The University's request to the 101st State Legislature was for the 1963-65 biennium:

- A. \$12,376,530 operating budget
- B. \$20,241,000 bond issue for capital construction

We await the decisions of our State Legislators and appreciate their support.

Gifts and Bequests

The University has received in 1962-63:

Gifts and Bequests	\$ 205,174
Research Grants	\$ 588,784

Arthur A. Hauck Building	
Funds	\$ 250,000
Pulp and Paper Scholarships	\$ 56,600
Pulp and Paper Support of teaching	\$ 28,200
Totaling	\$1,128,758

The faculty research accomplishments have hit an all-time high mark at the University.

The Carillon

The **Adm. Frank W. Fenno Carillon** was presented by a most generous alumnus in June of 1962. It provides notes of grandeur to our beloved campus at Orono.

Before conclusion I must express the appreciation of the Board of Trustees for our loyal and dedicated president, faculty, staff, administration, students, parents and friends.

We must all recognize that wishful thinking or a benevolent providence will not solve the problems for the University any more than for the Nation or the World. In the final analysis, educational opportunity will be expanded and strengthened by our own efforts, singly and cooperatively.

I wish to express my sincere appreciation for the opportunity you have all given me to serve on the Board of Trustees as Alumnae Trustee for almost six years. I know the many duties and assignments entrusted to me as your representative have at all times been performed with the best interest of the University and Alumni uppermost in my mind.

Mrs. Rena C. Bowles '21
Alumni Trustee

Stein Collection

The Memorial Union Governing Board of the University has instituted a Memorial Union Stein Collection. The purpose of this collection will be to accumulate in one central place a comprehensive collection of steins from any and all sources, but, particularly from colleges and universities throughout the world.

The popularity of the Maine Stein Song suggests the appropriateness of developing and identifying this collection with the University of Maine. Steins of varying size, decoration, fabrication, and origin would qualify for this collection. It is the intent of the Memorial Union to maintain this collection permanently with particular emphasis on a collection of high quality rather than numbers.

Persons or organizations wishing additional information concerning procedures and policies related to the Stein Collection are invited to send their inquiries to Mr. Nelson B. Jones, Director; Memorial Union, University of Maine, Orono.

Recipients in 1962 of the Harold S. Westerman Award, established by the Greater New York Alumni Association, were the three members of the '62 Maine eleven shown above: Fullback Bill Chard, Portland; Co-Captain Alton "Bump" Hadley of Brewer, a guard; and Co-Captain John Roberts of Alfred, a tackle. The three men were named by the Athletic Board as being worthy recipients who have performed in the true Westerman tradition. The three men, all members of the Class of 1963, played varsity football for three years and were members of the 1961 and 1962 State Series championship squads.

Athletic Board Report: 1962-63

ON BEHALF of your representatives on the Athletic Board, Clifford Patch '11, Chairman, Milford Cohen '41, and Thomas Hersey '34 I herewith submit the Annual Report for 1962-63.

Our Varsity Cross Country team won the I.C.A.A.A. (College Division) Championship at Van Courtland Park in New York last November 18th.

1963 VARSITY FOOTBALL SCHEDULE

The University's varsity football team is scheduled to play eight games this fall. Four will be played at home and four away. Following is the schedule:

Sept. 21	Massachusetts
Sept. 28	at Rhode Island
Oct. 5	Vermont
Oct. 12	at New Hampshire
Oct. 19	Connecticut (HOMECOMING)
Oct. 26	at Bates
Nov. 2	at Colby
Nov. 9	Bowdoin

The Varsity Track team again won the State and the Yankee Conference Track Championships. These were the third successive Championships in Yankee and State Track meets. The Freshmen track team was undefeated in their indoor and their outdoor seasons. Their victory over Dartmouth Freshmen in an indoor dedication meet at Hanover, New Hampshire was very noteworthy.

The Varsity football team won its third successive State Championship, but finished sixth in the Yankee Conference. It has a one win, four loss in Yankee Conference; and three victories in State Series, earning a four win, four loss for the season.

Our Varsity basketball team won nine games and lost fourteen games. They finished third in the State Series, and fourth in the Yankee Conference. Freshmen basketball team won thirteen games and lost only one.

The Athletic Board has voted Soccer a major sport commencing in the fall of 1963. A State Intercollegiate soccer league has been formed and all four Maine colleges will be playing two games with each member college. Great interest has been shown by Maine students in this sport during the past two fall practices.

The Varsity Winter Sports team successfully defended the State Championship last winter.

The Maine golf team won the State Championship, and went undefeated in its six State Series matches. Curry of Maine won the State individual golf title.

Maine's Varsity tennis doubles team of Elliott and Deering won the State Intercollegiate Doubles Championship and Deering of Maine was runner-up in the State singles Championship.

Varsity and Freshman Sailing teams were promoted and the future in this sport looks very encouraging.

The Rifle team finished second in the Yankee Conference and was among the top six of twenty New England teams.

Our Varsity baseball team took its annual Southern Baseball trip and played six games. They defeated Columbia and Virginia Tech and lost to Villanova, Loyola, Princeton, and Virginia Tech in close and interesting games. The team won nine and lost thirteen games, and finished third in State Series, and fourth in Yankee Conference.

The Freshman Baseball team had a very successful season and won all but two games.

A very successful Interscholastic Cross Country Run was again held at the University.

A very successful New England Intercollegiate Track Championship Meet was held at Orono this May, with twenty-two colleges participating. Maine finished third. This was the second time in the past five years that we have had the pleasure of being host to this outstanding event.

The only new member of our Athletic staff was Frank Creghan, our head trainer. No changes in the Athletic Department staff members are expected for the coming year.

One big change in our future football schedule was recently brought about by Bowdoin and Bates withdrawing from our Varsity Football schedule after 1964.

The great tradition, with keen student, faculty, and alumni interest, lost by these traditional rivals will be greatly missed. The Maine State Series, one of the oldest league rivalries in the country, will be very difficult to replace.

Your Board is already working on replacements for Bowdoin and Bates and I am sure that our new schedule starting in 1965 will prove to be of interest to the students and Alumni.

We have been very fortunate in having had Dartmouth and Brown on our Track schedule, and Brown has signed a contract to bring Varsity and Freshman track teams to Orono for the next two years.

Our facilities in some sports are very inadequate. We are in great need of additional tennis courts, and the immediate completion of the soccer field development is needed for this fall.

I have now completed twenty-one years of service as one of your representatives on

the Athletic Board and have enjoyed every minute of it. My successor will have many new problems to face in regards to intercollegiate athletic programs during the next few years, but I am sure that they will all be settled in the same Maine spirit that has always been shown by loyal Maine Alumni.

At this time I would like to thank this Association for allowing me for so many years to have been a member of such an important Board at the University.

Sincerely,

THOMAS M. HERSEY '34

BLACK BEAR NOMINATIONS DUE

IT'S TIME for Black Bear Award Nominations.

The 14th annual Black Bear Awards will be one of the highlights of the Faculty-Alumni Homecoming Luncheon preceding the Connecticut game on October 19.

A black bear mounted on a Maine granite base with a sterling silver inscription forms the awards. The bear is cast in bronze from a model exclusively sculptured for the Alumni Association by the noted Providence sculptor, Aristo B. Cianforani. The granite bases have been contributed by Robert McGuire '32 of the Deer Isle Granite Corporation.

Selection of recipients of the award

is made by an Association committee from nominations made by alumni. Awards are not restricted to alumni. Faculty and administrative members or friends of the University are eligible. Anyone who has received the Alumni Service Emblem is not eligible for the Black Bear Award.

Among the points considered in making the awards are: 1) devotion to the aims of the University; 2) exemplification of the ideals of the University in personal life; 3) length and quality of service to the University or Alumni Association; and 4) standing among alumni.

Names should be sent to the General Alumni Association, 44 Library, University of Maine, Orono.

Playing prominent roles in the 120th University of Maine Commencement program were, left to right: University President Dr. Lloyd H. Elliott, honorary degree recipients Dr.

Robert E. L. Strider, James M. Bridges, H. Russell Beatty, Dr. H. Edwin Young, and Board of Trustees President Samuel W. Collins '19.

120th Commencement: 852 Degrees

THE UNIVERSITY awarded the bachelor's degree to 788 seniors and advanced degrees to 64 graduate students at its 120th commencement exercises Saturday afternoon, June 8.

Because of a lack of facilities at the Orono campus to accommodate the several thousand attending the exercises, the commencement program was held in the Bangor Municipal Auditorium.

Candidates for the degrees were presented by the deans of the colleges and University President Dr. Lloyd H. Elliott officially conferred the degrees.

Honorary doctor's degrees were conferred on five distinguished citizens.

The recipients were:

H. Russell Beatty '27, Boston, Mass., president of Wentworth Institute, honorary Doctor of Engineering degree.

James M. Bridges '28, Washington, D.C., director, Office of Electronics, U.S. Department of Defense, honorary Doctor of Engineering degree.

Dr. James R. Killian, Jr., Cambridge, Mass., chairman of the Massachusetts Institute of Technology Corporation, honorary Doctor of Science degree.

Dr. Robert E. L. Strider, Waterville, president of Colby College, honorary Doctor of Humane Letters degree.

Dr. H. Edwin Young '40, Madison, Wisc., dean of the College of Letters and Science, University of Wisconsin, honorary Doctor of Laws degree.

Commencement Addresses

Commencement addresses were given by the valedictorian and salutatorian of the graduating class, Robert M. Leavitt of Winn and Roger P. Twitchell of South Paris, respectively.

Their remarks represented a departure from tradition at the university. In the past, a noted educator, industrialist or government official has been called upon to deliver the talk to the graduates.

Leavitt, speaking on the subject, "Education—A Preparation for the Future," urged that the process of education "begin at a very early age."

"However," Leavitt noted, "the most critical decisions concerning one's future education must be made at a time when the student is from 12 to 14 years of age for his decisions as to the high school curriculum may greatly affect his entire future."

"Although often unrealized, if upon entering high school the student does not select the college preparatory course then he is most likely lost to a higher education."

"It is our duty," he pointed out, "as future teachers, parents, and members of society to attempt to guide those about to enter high school."

Using for his subject, "What Do We Owe?", Twitchell urged his classmates to fulfill "certain obligations" to their country and to mankind.

"... we are obligated to give our very best to our employer once we have accepted a job. It has been said that too many people stop looking for work once they find a job. It is no wonder that we appear to have a shortage of manpower with attitudes like this."

"... we are obligated to do all that we can for our country."

And, "... we must not stop with our obligations to state and nation, but must become world citizens as well. In this day of audio-visual instruction, to attempt to pass on the great ideals on which our country was founded merely through the printed page

would certainly seem inadequate and backward. It is up to us to provide the living example of these ideals."

Honorary Degrees

The recipients of the honorary degrees were presented by Samuel W. Collins '19, Caribou, president of the university's board of trustees, and the citations were read by President Elliott.

JAMES R. KILLIAN, JR.

Born in Blacksburg, South Carolina, he attended Duke University and received his B.S. degree from the Massachusetts Institute of Technology in 1926; since that time, in recognition of his outstanding achievements, he has been awarded honorary degrees by 34 colleges and universities; beginning his career as assistant managing editor of the Technology Review, he later became the editor of this publication before being named executive assistant to the president of MIT in 1939; four years later he was advanced to the position of vice president of MIT, and in 1948 he was elected president of the institution, a position which he held with great distinction for 11 years; in 1959 he was named chairman of the corporation of MIT, selected by the President of the United States as his special assistant for science and technology in 1957, he also rendered notable service concurrently as chairman of the President's Scientific Advisory Committee; later he was named a member of the President's Advisory Committee on Management and chairman of the President's Board of Consultants on Foreign Intelligence Activities; he is a director of a number of America's well known corporations, a leader in civic, educational, philanthropic, and church activities, and the recipient of numerous awards including the President's Certificate of Merit, the Army's Certificate of Appreciation, the Atoms for Peace Award for 1960, and the Public Welfare Medal of the National Academy of Sciences.

In recognition of your inspiring leadership and your far-reaching contributions to the nation and the world in the areas of education, science, and public service, the Trustees are pleased to confer upon you the honorary degree of Doctor of Science.

ROBERT E. L. STRIDER

A native of Wheeling, West Virginia, graduate of Harvard College, with master's and doctor's degrees from that institution; beginning his teaching career at Harvard and Radcliffe Colleges, he left the field of education in 1942 to serve as a lieutenant in Naval Communications during World

War II; in 1946 he joined the faculty of Connecticut College where he was a member of the English department until 1957, when he was appointed dean of the faculty at Colby College; his ability as a dynamic leader and able administrator was given full recognition three years later when he was named 17th president of Colby College; his academic specialty is the 17th Century and he is the author of "Robert Greville, Lord Brooke," a biographical and critical study of a 17th century Puritan writer and public figure; he is a member of many learned and professional groups such as the American Academy of Arts and Sciences, American Council on Education, the Commission on International Understanding of the Association of American Colleges, Advisory Council of the Danforth Foundation, Maine Advisory Committee of the U. S. Commission on Civil Rights, National Commission on College Work of the Episcopal Church, and Advisory Board of African Student Service; he is also chairman of the Standing Committee on Institutions of Higher Education of the New England Association of Colleges and Secondary Schools, president of the New England Colleges Fund, past president of the Faculty Conference in Theology, and a director of the Portland Symphony Orchestra.

In recognition of your distinguished service to higher education, your scholarly attainments throughout your academic career, your forward-looking leadership as the head of our friendly and internationally-known sister institution in Waterville, the Trustees are pleased to confer on you the honorary degree of Doctor of Humane Letters.

H. EDWIN YOUNG

Born in Newfoundland, later residing during his early years in Aurora, Maine, a graduate of Bangor High School, and the recipient of the bachelor's degree from the University of Maine in 1940, the master's degree in 1942, and the Ph D. degree from the University of Wisconsin in 1950, after a year's teaching experience at Westbrook Junior College in 1942, he returned to the University of Maine as an instructor in economics, leaving this post in 1947 to accept a similar appointment at the University of Wisconsin, he rose through the academic ranks at Wisconsin to become a full professor, and from 1953 to 1961 he was chairman of the Department of Economics; recognizing his unusual talents as a scholar and administrator, the trustees of Wisconsin named him dean of the College of Letters and Science in 1961; in addition to his regular university duties, he has served as director of the School for Workers and director of the Industrial Relations Research Center, both at the

University of Wisconsin, and secretary-treasurer of the Industrial Relations Research Association, a national professional organization; on several occasions he has been called on for assistance abroad, serving as an instructor in the Salzburg Seminar in 1948, as a consultant for the State Department in Germany in 1950, as a Ford Faculty Fellow in Belgium in 1955; as director of a University of Wisconsin—Ford Foundation project in Indonesia since 1957; and as a member of an advisory group to the planning department of the government of Pakistan in 1961; his teaching and research interests have been in the area of industrial relations and have included the preparation of articles and mediation service on state boards dealing with personnel and insurance problems.

In recognition of your distinguished record in scholarly achievement and academic activities, your advancement of the highest principles of industrial relations, your contributions toward better international understanding, and your accomplishments as a graduate of this University, the Trustees are pleased to confer upon you the honorary degree of Doctor of Laws.

JAMES M. BRIDGES

A native son of Maine, born in Hancock, graduate of Ellsworth High School, and recipient of a B.S. degree in electrical engineering from the University of Maine in 1928; after graduating from the University, he served for 14 years as a member of the engineering staff of the New York Telephone Company, directing the establishment of the New York Harbor Radio Telephone System and his Vehicular Emergency Radio Telephone System of New York City, during World War II he was a commander in the U. S. Naval Reserve and was associated with the Navy's weapon control radar research and development program, receiving a commendation from Navy Secretary Forrestal for his contribution to the advancement of Naval fire control; from 1946 to 1952, as a Civil Service engineer, he was head of Radar Research and Development for the Navy Bureau of Ordnance and a fellow engineer has reported that "without his timely availability our surface-to-air missile program would have been seriously delayed", in 1952 he was appointed chief engineer for electronics for the Navy Bureau of Ordnance with responsibility for technical supervision of the electronics systems of such projects as the guided missile program, gun fire control, torpedoes, and mines, since 1955 he has served as the first director of the Office of Electronics for the U. S. Department of Defense, playing a leading role in the establishment of a defense-wide reliability improvement program for military electronics; a member of several professional engineering societies,

he is also the author of numerous articles and papers in the area of electronics.

In recognition of your distinguished service in the fields of engineering and electronics, your masterful and ingenious solutions for intricate communications problems, your many contributions to this Nation's defense program, and your continued interest in your native state and your alma mater, the Trustees are proud to confer on you the honorary degree of Doctor of Engineering.

H. RUSSELL BEATTY

Born in Eastport, he received his early education in the public schools of Massachusetts, and was graduated from the University of Maine with honors in 1927 with a B.S. degree in mechanical engineering; he received the degree of Master of Administrative Engineering from New York University in 1945; beginning his career in a variety of engineering positions with several large industrial concerns and public utilities, he joined the faculty of Pratt Institute in 1937, advancing in rank from instructor to professor and head of the department of administrative engineering; he also served at Pratt as assistant to the president and acting dean of the School of Engineering; in 1953 he was named president of Wentworth Institute in Boston and has ably served as head of that institution for the past decade; he is the author of *Principles of Industrial Management*, a text widely used by engineering colleges and schools of business administration; a member of several professional engineering societies, he is currently serving as a member of the Objective Criteria Committee in Nuclear Engineering Education of the American Nuclear Society and the American Society for Engineering Education; he also served as a member of the Engineers Joint Council Mission to the Soviet Union in 1960 which studied the utilization of engineers and technicians, active in civic, church, and educational organizations, he has recently been appointed to a special commission to make a survey of education in the Commonwealth of Massachusetts.

In recognition of your lifelong service in the field of engineering, your dedication to the best traditions of engineering education and technical training, your active interest in your alma mater, and your ability, diligence, and leadership as president of Wentworth Institute, the Trustees are pleased to confer upon you the honorary degree of Doctor of Engineering.

Alumni Watch Award Winners

MISS NICOLE KIMBALL and JAMES HANSON received the coveted alumni watches this year. The watches are presented each year by the Portland Club of University of Maine Women and the Washington (D.C.) Alumni Association to the man and woman in the senior class who, in the eyes of their classmates, "have done the most for the University during their years on campus."

Miss Kimball has been a student and academic leader. She is a member of Phi Kappa Phi and Phi Beta Kappa honor societies, the All-Maine Women's Society, and president of the Panhellenic Council. She won the Mu Alpha Epsilon award for contributions to music during her senior year.

Hanson served as president of his class for three years as well as being a member of the General Student Senate, vice president of his fraternity, and a resident dormitory counselor. He was a member of the Sophomore Owls and Senior Skulls.

Mr. Joseph W. Crowe

1905 708 North 20th St., Boise, Idaho
My classmates have almost quit writing to me. However, Caleb W. Scribner, of Patten, saved the day. He tells me that after college he found raising potatoes "took his shirt." He then spent some years timber cruising and in 1927 became chief game warden for Kathadin, So. Aroostook, and No. Penobscot areas. He retired at 65. He also was president of Patten Academy for many years. The water color bug has taken up a lot of his spare time. He is 81 years old and has good health.

Freeman and Mrs. Sampson, of Orono, have just returned (4-23-63) from a weeks tour of Virginia's Spring Festival which they found "breath taking."

Clayton W. Bowles, Augusta, says he has retired for recreation, a big garden, and is addicted to golf.

Roy G. Sands, Waukegan, Ill., according to a news clipping, celebrated his 82nd birthday, March 11, by a surprise party at the First Christian Church where he is the oldest member, and was for 20 years chairman of its official board. Roy retired in 1950 after serving as a consultant for 15 years with the Automatic Electric Co. Prior to that he had operated the Sands Electric Co., which he sold to Automatic. Mrs. Sands passed away 10½ years ago. Roy has one daughter.

Walter Manson, W. Boothbay Harbor, retired in 1948 after 31 years as chief engineer of the Holmes Electric Protective Co., of the N. Y. Tel. & Tel.; previously he had worked 14 years in various de-

partments of the telephone company. In 1958 they bought and restored an old home in Boothbay Harbor. They have two sons.

Adolphus S. Crawford, Peaks Island, was 81 years old on April 3, a mere kid to some of us. Three years ago he had a heart attack which caused him to retire from his law practice in Portland which he started in 1940, after having spent 30 years practicing in Houlton. Dolph's family consists of Mrs. Crawford, two sons, and four daughters, together with 19 grandchildren and eight great-grandchildren. I wonder if any 1905 classmates can beat that?

Miss Marion Lee Webster, of Belfast held open house on her 94th birthday, May 19. Miss Webster attended the University for one year and received her B.A. and M.A. from Columbia University. In 1939 she retired, at 70 years of age, from teaching at Fitchburg (Mass.) State Normal College. Previous to that she had taught in Indiana and at Clark University.

1907 Mr. Karl MacDonald
27 Nelson Ave., Wellsville, N. Y.

The class of 1907 wish to congratulate Miss Margaret M. Mollison on her marriage to her classmate Donald McIntosh, '50 and wish them a long and happy marriage. Miss Mollison retired this June as Assistant Executive Director and Class Notes Editor. The writer wishes to compliment her work as Class Notes Editor of the *Alumnus*.

The Maine Good Roads Association have re-elected Lucius D. Barrows, Augusta, as secretary-assistant treasurer. Lucius is the first of two members granted the honor of a life membership by the Association.

Your secretary enjoyed his trip and visit to Savannah, Ga. Had fine weather at all times. Enjoyed the fresh fish and oysters but saw no ball games, except on TV, as Savannah had no league team. However, we returned to Wellsville in time to see the opening game of the N. Y.-Pa. class A league.

A postal from Herb Green, Spencer, Mass., saying they were well. Said it was doubtful if they would attend Commencement this year as it was a long trip. Last year he came by Greyhound and "leave the driving to us."

We saw by the last *Alumnus* that Arthur Sampson is no longer with us. Arthur was a classmate that kept his word. You perhaps remember that when he graduated, the University took over the College Store which he operated. It was probably one of the best things that could have happened to Arthur but he did not think so. As I remember, he said he would never set foot on the Campus again and to my knowledge he kept his word, in spite of his brother and your secretary asking him to come back to Commencement.

1908 Mr. James A. Gannett
166 Main Street, Orono

Everett and Florence Coleman have moved from Santa Barbara and are now living at 1461 Merion Way, Apt. 52 J, Seal Beach, Calif.

Dan Chase who has been the Executive Director of The Sportsmanship Brotherhood, Inc., since 1926 was elected President of the Brotherhood at the last annual meeting.

Burton and Grace Flanders spent several weeks vacationing in Florida during the past winter.

Phil Emery writes, "Did I tell you that we have another great granddaughter born April 18th, 7½ lbs., named Deborah Rooney? That makes four great-grandchildren now. I am trying to beat out the Kennedys but from all reports I guess it is hopeless."

George Fogg wrote from Hulls Cove on May 11, "Believe it or not, 75 years ago today mother took me on my first sleigh ride. Four inches of snow here today!"

I talked with Arthur Hanscom at Malta, Montana, on May 15 on the "Three minutes for \$1 after 9 P.M." deal. "Father" is well but admits that he is getting on in years. He promised us a letter for our class dinner. I was short-changed on the time because "Father" was out in his garden and Mrs. Hanscom had to summons him to the phone!

Perhaps our most loyal member and the man who was more disappointed than any other that he could not come for our 55th was Dr. Thomas Fessenden, formerly of Clearwater, Fla. Tom is grievously ill at the home of his daughter Eileen in Bath. For all his afflictions he does not complain and exhibits a wonderful philosophy of life trying, in his own words "to be a good soldier."

1909 Mr. Herbert P. Bruce
98 Willow Rd., Nahant, Mass.

In mid-April, on the way home from a winter in Hawaii, Florence and Fred Knight stopped over briefly in San Francisco. While there Fred had two very satisfying telephone conversations with classmates: The first with Mrs. J. Randolph Bradstreet (Helen Steward) at Laguna Beach, Cal., who, you

will recall, was the victim of serious surgery last fall. Happily, she has made excellent recovery, sounded very cheerful, is nearly back to normal pursuits, and looks to the future with enthusiasm. Wonderful news to all of us. The second call was to George Sweetser in Portland, Ore. He sounded well and active. Sara (Brown '08), his wife, has been ill but is making good recovery. Except for a few limitations she hopes to be about as usual, soon.

A recent letter from the Elton Towles informs us that they are leaving, via S. S. United States, May 10, for about two months in Europe. The focus of their trip is a visit with their son, Andy, who is in Germany as technical advisor to a duPont subsidiary "Adox Foto Werke." Two of three grandsons will also be in Europe during college vacations. A grand family reunion is in the offing for the Towles and we all wish them Bon Voyage and a happy return home.

A recent note came from Mrs. Thomas M. Gunn (Cora Shaw), of Pittsfield, Mass. Her son from California, who was in the East to participate in the "International Badminton Games," in Baltimore, spent a happy weekend with Cora before returning to the West coast. Cora keeps busy as assistant in the reading room (Library); occasional trips to New York City and many shorter trips about her own beautiful Berkshire area. In filling out her directory information form, Cora discovered that 18 relatives had attended Maine, before and after her—an aunt was the first female graduate. Can anyone beat that for a family record?

The Bruce's report the birth of their first GREAT-grandchild, Robin Lee Wilke, daughter of Bettina Marian and Wayne Henry Wilke, born May 2, 1963. Grandparent honors go to Bettina Bruce Smith and Arthur G. Smith, both 1938. We are also the proud grandparents of 9.

The Smith College Bulletin lists the 1962 publications of Mary Ellen Chase, Professor Emeritus of English, in their Faculty Publications. Included are books, hard cover and paperback, two of which had been translated in Marathi and in Arabic, and several articles in college quarterlies, or church publications. Thirteen publications plus Reviews of New York Herald Tribune Books, are included in the list.

The Rev. Arof J. Anderson, husband of Mrs. Martha Knight Anderson, died Apr. 15, in Orange, Mass., after several years of failing health. All of Mrs. Anderson's classmates extend heartfelt sympathy and many will wish to write her. Address: 126 West River St., Orange, Mass.

This will be my last attempt at writing the *Alumni News* for 1909, then back to Fred.

1910 Mr. George P. Goodrich
14 Lawn Ave., Portland

Just after I sent my news for the April-May issue of the *Alumnus*, I received a nice letter from Phil Simonton, 327 Home Ave., Oak Park, Ill. Phil and the Mrs. had just returned from a trip South where they took in Natchez, New Orleans, Avery Island, Port Arthur, Tex., and Houston. In his letter he says, "We have a summer place at Douglas, Mich., on the big lake similar to Dimon Merrill's place on Cape Cod. At any rate, there are two daughters and their families (6 grandchildren), who seem to enjoy it there during the hot weather." Phil also says he could not make our 50th Reunion, and whether or not he'll get to Maine again is the \$64 question—but he hopes he can. He also said he was saddened by the news of Prof. Weston's death—as were we all—and that he had known him well and visited him often at his home in Madison.

Charles F. Smith and wife have recently returned to their home in Orono from a five weeks trip through Western New York where they visited their sons and families in Buffalo and Rochester.

Charles Stickney and wife have just returned (in early May) from a five month stay at Madeira Beach, Fla., and report a very pleasant and restful winter. For most of us it has been a long, hard, snowy, icy winter but spring is finally here with the new leaves, green grass and early flowers. We sure do appreciate them.

For our next issue your secretary hopes you will all have done "something" you'd like to have the rest of the class know about. If so, please send it along, today. We'll try to have a good report of our Commencement-Reunion weekend activities for those who don't get back. A pleasant summer to you all.

EDITOR'S NOTE: Mr. Goodrich attended the Commencement-Reunion week-end. He asked that his report in the April-May issue of the *Alumnus* Building Fund" instead of the \$100 reported. be corrected to read \$1,000 to the Arthur A. Hauck

1912 Mr. William E. Schrupp
84 College Ave., Orono

Henry C. Covell, of Monmouth Lodge of Masons, received a 40-year Medal at the April 29 Masonic

meeting. Mr. Covell is retired from test work on poultry for the Maine Department of Agriculture and lives with his daughter, Mildred '37, a teacher of Home Economics at Lewiston.

BY CLASSES

1913 Mr. Clifton E. Chandler
12 Pinewood Drive, Cumberland Center
By the time you peruse the next *Alumnus* and read this column, you, the members of the Illustrious Class of 1913 will have graduated into that ever growing and powerful body of Senior Alumni and from now on have the opportunity to give vent to even greater loyalty as the years pass by. As one looks back over the years the Class of 1913 has been a happy group and has displayed a fine loyal spirit towards the University during this trying period. The year 1913 was a tough year to graduate, a time when salaries of \$10.00 a week was the regular pay for many of us at the start. As I have read many of the Biographical Sketches which I have received I have marveled at the distinguished honors which many of you have attained during this half century period. The University I know looks with pride on the career of each of you and is grateful for the loyalty which each of you have displayed towards its progress. We, as a Class, have given generously to the support of all fund raising projects for new buildings, and, although we have not given to the University, funds for scholarships, etc., we did present to the University a Cabin for worthy students and a portrait of our beloved former President, Arthur A. Hauck, gifts which will leave a lasting impression on the student body and others as milestones in the progress of this Illustrious Class of 1913. May God bless you for your devotion.

Fifty year and Charter Members of the Phi Mu Sorority will be honored at a Phi Mu State Day at the University on May 18, 1963 and one of our own Classmates, Mrs. Mae Crossman Lindquest will be one of the honored guests. Yea! Mae, I remember the little gal from Amarillo, Texas, who acted as your sponsor—what a gal, she got me so confused that I had to check the map several times to determine if Amarillo was south of the Mason-Dixon Line.

The sad news comes to me of the death of Ralph M. Ladrner who entered with the Class of 1913 and enrolled for two years. His death was reported as of April 15, 1963. The Class extends to his immediate family its sympathy in this hour of bereavement.

1914 Mr. H. P. Adams
42 Boston Rock Rd., Melrose 76, Mass.
At the 15th meeting of the Keep Maine Green Committee, in Augusta, "Sherm" Rand was re-elected chairman of the committee. "Sherm" has held this position for several years.

Harold Shaw has been appointed one of the co-chairmen of the Advance Gifts Division for the 1963-64 campaign of the Sanford-Springvale United Fund, Inc. The appointment was made by Joseph T. Barberie, United Fund President.

A letter from Claude R. Weymouth, Memphis, Tenn., reads: "I was a member of the class of 1914, and a member of Phi Kappa Sigma Fraternity. I transferred to the University of Wisconsin and was there from 1916 through 1918, receiving my B.S. Degree in civil engineering." We hope Claude will be with us for our 50th next June.

1915 Mrs. Harold P. Adams
(Margaret Holyoke)
41 Boston Rock Rd., Melrose 76, Mass.

We have only one item for this issue for 1915: The Grand Lodge of Maine at the Masonic Lodge meeting presented a 40-year medal to Charles McIntire, of Washburn.

1916 Mrs. Evelyn Winship Harmon
Livermore Falls

Marguerite Jones (Mrs. A. M.) Riley in a delightful note says that for the most part they live quietly, but do go to Florida sometime during the winter. Her son, Stephen, is news editor of the Portland Sunday Telegram. She has 2 grandchildren—2½ and 3½ years old.

I received a note from Roland Dingley of Farmington. He has a new grandson, Miles Ranger, of Boston. Miles' father, Geary Ranger, graduated from the University a couple of years ago and has a good job with Anderson Accounting Firm. Roland also has a granddaughter, who graduated from the University in 1961.

I was glad to hear from Edson W. Bartlett several months ago. He retired from his many years of work with the Bangor Hydro Electric Co. in 1959.

Winfred Edminster and his wife of Norway went to Arizona in Jan. and spent several months there. They lived in a trailer in Benson, a small town 45 miles east of Tucson. From there, they made many

trips in that area, Tombstone, the Chiricahua Monument, and the Saguaro National Monument.

I am very sorry to report the death of Francis W. O'Rourke at his home in Hyannis, Mass., on April 23. I am sure the class extends sincere sympathy to his widow and two daughters.

Yesterday noon, I was delighted and surprised to receive a telephone call from "Tom" (Thomas G.) Mangan. He had just arrived in town after his winter in Mexico. He had taken two weeks to come across country, had driven over 5,000 miles, and stopped at the Petrified Forest, The Painted Desert, The Carlsbad Caverns, the Grand Canyon, the Rocky Mountain Park, and the Colorado Springs Airforce Base.

Archie D. Clark of East Corinth has recently retired from his position of Bangor County Supervisor for the Farmers Home Administration after completing over 40 years of service. As Farm Management Supervisor for eastern Penobscot County since July, 1947, he has become well known in agricultural and credit circles. In addition to this service, he has been very active in community and civil affairs.

1917 Mrs. William F. West
(Helen L. Danforth)
191A Broadway, Bangor

As you can expect, your Class Reporter is buried in her garden, with a double load of work this spring, since very little of the garden was cut back in the fall. We will move down in another week, and I hope you all realize that I am never too busy to have callers. Drop me a card, if possible, so I will be there.

Grace Coffin made the news recently, when she was elected Secretary of the Penobscot Chapter of the Maine Retired Teacher's Association.

Another bit of news about Roland Cobb, whose retirement from his position as Maine Fish and Game Commissioner I recently wrote about. He was presented a hunting rifle, with the inscription "He suffered no man to do them wrong; yea he reproved kings for their sakes."

Somersett Lodge, A. F. and A. M. presented service pins recently; among them a forty-five year pin to Gerald Marble.

Sympathy of classmates is extended to Flora Howard Mayo, of Dover-Foxcroft, in the death of her husband, Walter J. Mayo, May 21, 1963, after a short illness.

Paul E. Chadbourne has retired as assistant treasurer of the Saco and Biddeford Savings Bank, Saco, after twenty-five years of service. He has also been very active in his community, and has served as director and trustee of many local civic organizations.

The Alcoa News recently had a delightful article about Bill Reynolds. Bill joined Alcoa in 1923, retiring in 1959. His first assignment was at Dayton, Ohio, in the Sales Office; from there to Cincinnati, where he pioneered aluminum use in truck bodies and trailers; in 1945 he opened the Columbus branch sales office, and became its first manager. Bill's first love seems to be "horses." From the time he learned horsemanship at the French School of Cavalry while a member of the American Expeditionary Forces during World War I, the lure of riding a spirited animal has never left him. Summers, he and Mrs. Reynolds return to Northeast Harbor, where he operates the Reynolds Riding School. The rest of the year they live on their 50-acre farm at Gahanna, near Columbus. Here, Bill rides, with other fox hunters, with a pack of 20 to 30 hounds, at Rocky Fork Headly Hunt, Inc.

1918 Mr. Francis Head
208 Essex St., Bangor

Newsy letter from Vera Gellerson Robinson, who has been put to bed and won't be with us. Husband Albert '16 is pres. of the St. Petersburg, Fla. alumni. Harry and Mrs. Watson had visited her, and got together with Jimmie Spiers, Red Abbott and Lucille (Royal) Chamberlain. They sold their house in Maine (Houlton) and now own an apartment house—something to keep them busy. And a hearty handshake to all. One daughter, two grandsons, two granddaughters.

And now for a newsy letter from more of you. Mr. & Mrs. Henry Hooper celebrated their 50th wedding anniversary. He retired in 1959 from Penobscot Chemical Fibre Co., and is now a consulting chemist. Son John F. '38 of Port Angeles, Wash., and daughter Mrs. Frederick (Gwendolyn) '39 Baird of Brattleboro, Vt., were present. Three grandsons, one great-granddaughter.

Dick Newdick was re-elected chairman of the Eastern States Exposition. Tom Borjesson was not opposed for Town Clerk of Richmond and trustee of trust funds.

Philip W. Lown made news by selling his interest in the Lown Shoe Co. of Auburn.

Walter Creamer, fellow of institute of Electrical

and Electronic Engineers, had the honor of presenting a certificate of Fellowship to Basil T. Payne.

1919

Joseph T. Beck, of Augusta, has published Part Two of "Historical Notes on Augusta, Maine." A year ago he published a book about the West side of the Kennebec River. Part Two has to do with historical notes on houses and the families who live in them on the East side of the river. Joe is a member of the Maine Historical Society.

Dr. Paul E. Wiggin, director of the New England Music Camp, at Oakland, has announced that Alumni Hall, a combination indoor concert and recreation building, is about to become a reality. The contracts have been awarded for the construction. Architect Deane Woodward '46, of Auburn, has designed the building.

1920 M. Eleanor Jackson, C.L.U.
140 Federal Street
Boston 10, Massachusetts

We reported earlier that Sam Rosenthal had been in a serious auto accident. You will be sorry to hear for this later report, April 24, Portland Press reports Sam has been granted a leave of absence for illness by the School Committee.

Frank Besse, President of the Associated Industries of Maine has been elected as a trustee of the Eastern States Exposition, West Springfield, Mass.

Lillian (Budway) Treat writes from 1573 N. Harrison Ave., Fresno 5, Cal. "Active in Adoption Service Auxiliary, Cotton Wives Auxiliary and Church Clubs. Hobbies:—French and Bridge. Expecting 16th grandchild in August. Husband still in airplane Crop-Dusting business."

Harry Watson is keeping busy during his retirement with work on Professional Engineering Committees. He has recently been appointed National Director for Maine Society of Professional Engineers and is chairman of the Maine Board of Registration for Professional Engineers. He is also chairman of the committee on the National Bureau of Engineering Registration and hopes to attend the National meeting in Hawaii in August.

Zeke Deering has sent a poem, "A True Bostonian." St. Peter advises the man to return to Boston as, "Heaven isn't good enough for you"; some "definitions" being circulated surreptitiously in Washington's huge Pentagon building that are choice; and the funny story of what happens to 12 bottles of whiskey ordered by wife to be emptied in sink. Any of you want copies of these, ask Zeke for the ones you want. Zeke sent Matt Merry a little folder that Zeke had sent me earlier. Now Matt has sent me his copy. Have fun boys!

1921 Mrs. Stormont Josselyn
(Emilie Kitter)
229 Kenzoa Ave., Haverhill, Mass.

Don Osborne: "Went with New York Telephone after graduation from Maine, and with the exception of 2½ years with Bell lab. during the war, remained with Telephone Co. until I retired in 1958. Both Theresa and I grew up in Maine and always planned to retire there. Since I have always had a hankering to use tools, we bought a nice old house in Belfast and I have been satisfying the above hankering, but good! Theresa and I are 'snarled' up in a raft of organizations in the town, and there seems to be no end of things to keep us busy. There is no place like Maine! We love it! We have a son, Donald, in the insurance business on West Coast, a daughter Anne who lives in Conn., and two granddaughters."

Warren Preble, Los Angeles: "our twin sons, Dick '50 and Bob '50, are here in The West and doing well in their work. We have five grandchildren. I play golf every Saturday and Sunday. It's 'wonderful to be able to play the whole 12 months.' One has to drive about 300 miles to get decent fishing, so haven't been for over 5 years. Still working, Home Life Ins."

Harry Greenleaf: "Andrew Adams is retiring in March after 42 years with Maine State Highway. Clarence Partridge has been with the Highway since graduation and is the Bridge Design Engineer at present."

After 28 years in the Bridge Division of S. H. C. I became, in 1951, Division Engineer in Portland looking after Maintenance and snow removal in York and Cumberland Counties."

Clarence Partridge has been with the Maine State Highway since 1921 and at present is the Bridge Design Engineer. He was one of the speakers at the dinner for Andy Adams.

In March Andrew Adams, retiring state engineer, was honored by his friends and associates at a banquet. Andy, who was resident engineer on the Augusta Memorial Bridge, served for over 40 years as an engineer with the bridge division,

which included residency on more than 20 of the larger bridges in the state. He was also cited for his research which had contributed greatly to the State's knowledge of cement, aggregates, and concrete. Andy was presented one of James A. Elliott's marine water colors, and a purse of money.

1922 Mrs. Frederick Marston
(Kay Sargent)
Sargentville

The Veazie Jaycees sponsored a "Meet the Candidates Night" prior to Town Meeting; one of our classmates was moderator, Mrs. Frank Todd (Helen Hathorne). They must have thought she did a good job for as I wrote earlier, she was chosen moderator for the Town Meeting.

F. Kenneth Chapman was elected treasurer of the Old Town Rotary Club in March. He will take over his duties in July.

The Women's Auxiliary of the EMGH recently honored more than 300 volunteers for service given to the hospital the past year. Miss Estelle Nason '22 was one of those receiving an award with 1007 hours.

You should all know that Sedgwick is celebrating its bicentennial this summer, on August 2, 3 and 4th. Foster Blake is very busy as general chairman.

1923 Mrs. Norman E. Torrey
(Toni Gould)
271 West Broadway, Bangor

Olin Berry, who is president and general manager of Berry Motors at Presque Isle, was recently pictured with Mrs. Berry as they sailed for Hawaii with two other Aroostook County couples. They reported that they had previously vacationed in the South and West.

Eunice Winslow, who holds a Master's Degree from the U of Penn. has taught at Rockport, Maine, for the last six years. Previously, she had taught at Bridgton and Abington, Pa. At Rockport she has been director of one-act plays, spelling contests, director of the graduation program, as well as being Sophomore Class advisor and sponsor of the Library Club. Eunice holds membership in the NEA, MTA and the Knox County Teacher's Association.

Elsie Perry (Mrs. David) Hoyt, of South Portland, was elected president of the Woman's Society of Christian Service, Maine Conference of the Methodist Church.

1924 Mrs. Clarence C. Little
(Beatrice Johnson)
R F D 1, Ellsworth

By now you have heard the sad news that our beloved classmate George Lord passed away recently. Although he had been ill and we knew he had to slow down, it was a shock to all of us. A scholarship in George's honor has been established at the University as a tribute to his magnificent service to the Institution as Director of the Co-operative Extension Service. He is greatly missed. Our profound sympathy is extended to his wife, Louise and his family.

Charles G. Taylor has resigned (effective Aug. 31) as Superintendent of the Foxboro, Massachusetts schools, where he has served for eleven years. He will accept another position requiring less time and intensity but equally challenging and interesting.

Joy L. Nevens, former Head of the English Dept. at Quincy High School, Quincy, Mass., left a legacy to the University Loan Fund.

We Little's hope to see many of you at Commencement even though it is not a reunion year. Have a healthful and happy summer.

I am struggling to implement a mental health educational program in Hancock County having been made the President of the Association here. I believe a great many maladjustments and unhappinesses could be prevented or corrected with simple facts without the aid of trained psychiatrists. The latter are so scarce in the United States today that communities must make attempts to help each other in alternative ways.

1925 Mrs. William E. Schrupf
(Mildred "Brownie" Brown)
84 College Ave., Orono

Helene Douglas and husband, Dr. Donald H. Daniels '22, are serving as general chairmen for the Readfield Little Town Club's sponsorship of the annual Readfield Community Day in August.

Once again Mansfield Packard, of Waterville, was one of the six endmen at the First Congregational Church's Circus Minstrels—a three-night run—crooning, "If you knew Susie—"

Arlene (Mrs. Stanley) Hyde, So Portland, was in charge of a workshop on "Assignment—Race," at the annual meeting of Christian Social Relations for United Church Women of Maine, held at Dover-Foxcroft.

Frank L. Robinson is with Westinghouse Electric Corp., at Augusta. Frank is acting manager of the corporation's Apparatus Repair Shop.

Raymond S. Finley has accepted the position as executive secretary-treasurer of the Skowhegan Chamber of Commerce.

"Peg" (Hanley) Mason (Mrs. John), Augusta, assisted in making plans for the AAUW Scholarship Tea at the Blaine House in May. Her daughter, Mrs. John Lane, Jr., '55 is president of the Augusta Chapter, which sponsored the tea for this statewide AAUW affair.

Rubena Pressey was a member of the choir for the Founders' Day ceremony honoring the national founders of Alpha Chapter of Delta Kappa Gamma.

"Bob" Haskell was re-elected president of the Bangor Hydro-Electric Company, as well as to the board of directors. "Bob" is also president of the board of trustees of the Eastern Maine General Hospital and gave a progress report at the recent annual meeting.

Prominent at the 80th annual State YMCA convention was Chet Baker, State YMCA secretary. At the Northern Kennebec Alumni meeting in May, Chet received an Alumni Activities "M" award from the General Alumni Association.

Carl A. Lejonhudd is project engineer with the U. S. Atomic Energy Commission, Washington, D. C. He lives with his family at Silver Spring, Md. Carl received his M.E. from Maine in '50, and in '52 an M.S. from the University of Maryland.

1926 Mrs. Trygve Heistad
(Shirley Roberts)
503 Riverside Drive, Augusta

Robert E. Turner—Recently addressed the Fall Rivers Association of Life Underwriters at their monthly meeting. Bob is assistant manager of the Pyre Agency of the Prudential Mutual Life and is in charge of its brokerage department. He is past president of Boston Life Underwriters and past director of General Agents and Managers Association. At present he is senior instructor for the Life Underwriters training course held in Boston.

Robert H. Noyes—Designed and developed the first successful radar transmitter, a major contribution to the radio wave reflection system that played a large part in achieving victory in World War II, used by the U.S. Army. Robert retired March 29th from the U.S. Army Electronics Research and Development Laboratory after 34 years of federal service. Mr. Noyes has spent most of his career at Fort Monmouth, New Jersey, filling a number of military assignments including service on the engineering staff of the Laboratories, executive officer of the Coles and Squier (Signal) laboratories in this area, Signal Corps liaison officer to the Corps of engineers, Fort Belvoir, Va. and Chief of Communications Branch in the office of the Chief Signal Officer at the Pentagon. In July of 1942 Mr. Noyes was commissioned Major in the Signal Corps. He left active Military duty in 1946. With his wife, the former Barbara Weston, he will make his home on the Benjamin Weston farm in Madison, Maine.

Audrey Fenlason—Word has been received of the recent death of her husband, Willard C. Jennys. Our sincere sympathy to you, Audrey.

1928 Mrs. William B. Ledger
(Emma E. Thompson)
275 Capisc St., Portland

Due to a typing error on the last Class of 1928 Reunion Letter there were three names mixed up. It should have read:

Mabel Kirkpatrick Lovejoy
Kenneth C. Lovejoy
James Bridges

All should have been listed as planning to return to the June Reunion.

Albert M. Parker is in the practice of patent, trademark, and copyright law under the firm name of Parker and Vibber on Fifth Ave., in New York. A chance to "jell" all our brain-storms.

Kenneth Lovejoy and Mabel top the number of news items available—a picture of Kenneth and Mrs. John Reed, and others at a Farm Youth Exchange tea at the Blaine House, a 4-H trip with 4-H'ers to Washington, D.C., for the 33rd National Conference; a program on Family Economics and Insurance, and Mabel, Asst. Home Demonstration Agt., presented the program.

David Fuller has retired as president of the Harvard Club of Eastern Maine.

A very nice picture of Jessie Oak—Home Demi—Presque at Annual tea.

Clarence M. Flint, of Cohasset, Mass., was recently promoted to corporate Vice President of Chas. T. Main Inc., Engineers of Boston and Charlotte. Clarence is also director of newspaper—

the Patriot Ledger—Quincy, Mass.

Betty Collins is teaching in Redlands, California. Spends vacation in Maine every other year. Hope this is our year at Reunion time!

1929 Mrs. Matthew E. Highlands
(Ramona Poley)
111 Forest Ave., Orono

Philip Marsh has retired from teaching in order to devote his time to writing. He is now living in a trailer in Phoenix, Arizona.

John White, who is president of the Bangor Art Society, arranged an exhibition of paintings by the members of the society at the Oakes room of the university library. Phil Brockway '31 worked with him on the exhibition. It received very favorable comment.

Jack (John) Lyden has been made a vice-president of the International Paper Co.

George Cunningham was a speaker at the meetings of the Mathematics Teachers Assn. of Nova Scotia in Halifax this spring.

Mary Reed, cataloger at the University library, Orono, was elected treasurer of the Elizabeth Beale Group of the WSCS of the Methodist Church.

Rozella Clapp (Mrs. Michael Maresca) lives in Bangor and is employed at the Bangor Public Library. Her son, Stephen, is a senior at the University.

1930 Mrs. Ernest Pero
(Jeanette Roney)
11 West End Ave., Westboro, Mass.

We're back at home after a weekend on campus which was as lovely as it always is at this time of year. We attended Tri-Delt parents' day. Our daughter Ernestine has just been elected president of Alpha Kappa Chapter. Frank and Ruth (Shurtleff '35) Goodwin attended Pi Beta Phi parents' day. Their daughter Pamela is a sophomore member of the sorority.

On our way home we stopped in Augusta where I met Niran Bates who has worked for the State of Maine in Augusta ever since we graduated. It was good to see him again and meet his wife.

One of the things which makes a secretary's life interesting is a letter from classmates. Such was the letter from "Harold" Lloyd who is enjoying a delightful six weeks vacation in Hawaii. His son Richard, Maine '60, is employed there and gave his parents the trip as a gift. After seeing the islands, I believe they'll want to stay there, too. They flew from Baltimore to L.A. where they spent several days visiting Disneyland and other attractions. In the Hawaiian Village, Harold will attend the Pan Pacific Symposium in line with his work at Aero Medical Branch N.A.T.C., Patuxent River. One of the principal speakers at the meeting will be Dr. John Eldrid Smith (Maine '34) who was drummer in the "Harmaniacs" which Lloyd started and who played for all our dances. They haven't met since they left Maine so it should be an interesting get together. The Lloyds will be back in Baltimore around June 3rd.

Among the new coaches of spring sports in the Cumberland County Conference is Hector Hebert of Yarmouth High who will coach tennis.

Congressman McIntire along with Congressman Sibel of Connecticut and MacGregor of Minnesota gave several talks for the G.O.P. in New York State and Connecticut during the Easter recess of Congress.

1948 Mrs. Richard S. Foster
(Jean Campbell)
5125 Abercrombie Drive
Edina 24, Minnesota

This, my last column for the class of '48, comes to you from a new location. The Fosters have been uprooted and replanted in the Minneapolis area. It was a sudden move—these things usually are, I guess—and a rewarding one for Dick, especially. He has been made an assistant market manager in the residential division of Honeywell and now finds himself in an exciting and challenging new field of endeavor. He will be traveling the length and breadth of this fair country of ours and judging from his schedule, I think our friends and relatives may see more of him than we will for a while. We are reasonably well settled in our new home and find the people warm and friendly. This move, I'm afraid will make it impossible for us to make the 15th reunion of the class, so may I take this opportunity to say I have really enjoyed my five year term of office and to encourage you all to help your new secretary by keeping her-or-him informed of your various activities.

A double announcement from the family of Dr. and Mrs. Mark H. Lane. Dr. Lane is now associated with a group of medical men as a neurologist with offices in the Neuropsychiatric Institute, in Fargo, North Dakota. The Lanes also have a new son. Mark David who joined daughter Helen who is 7.

Battle of Enterprise and Boxer

No battle during the War of 1812 so excited the people of Portland as that between the US Brig Enterprise and HMS Boxer, which was fought off Seguin on September 5th, 1812.

The Enterprise was at anchor in Portland harbor when news came that the British enemy was off the coast. She immediately got under way and started in pursuit; but the wind was light and southerly and it was flood-tide, so that when she reached Spring Point she found herself unable to stem the tide.

Quite as though it had been rehearsed many times, "every boat dropped into the water full of men, and they were ranged in a line ahead of the brig and, with exciting songs, towed her clear of land, and she bore away for Seguin."

The next day saw great excitement in the town. Early that Sunday morning people began assembling at the Observatory on Munjoy's Hill to learn the outcome of the expected battle. Captain Moody, keeper of the Observatory, admitted a few friends and the proprietors of the Observatory to the enclosure where a great telescope was installed, but excluded all others.

These grouped at the base of the tower and listened avidly as Captain Moody, telescope trained on Seguin (which could be seen clearly that day), relayed the happenings by megaphone to them.

In the forenoon he saw the smoke of the Boxer's challenge gun and that of the Enterprise accepting it. A contemporary description of the event tells us that at this news "notwithstanding it was Sunday, a cheer went up from the crowd."

A detailed report of every move and counter-move of the 45-minute battle was published in the Portland Gazette of September 13, 1813, and makes interesting reading—particularly in the light of modern naval warfare methods.

On Monday the outcome of the battle was still in doubt until the Enterprise was signaled, leading her prize. The vessels came in to Union Wharf, where "all who wished went on board." The commanders of both the British and United States vessels had been killed in the action and lay in state, each wrapped in his country's flag. They were buried with equal honors, side by side, in the "old burying ground"—the Eastern Cemetery on Munjoy's Hill, at a spot overlooking the sea where they died.
